DAPPLE UPLIGHTER - BOLLARD LIGHT INSTALLATION GUIDE

⚡ PLEASE MAKE SURE THAT MAINS IS DISCONNECTED BEFORE PROCEEDING!

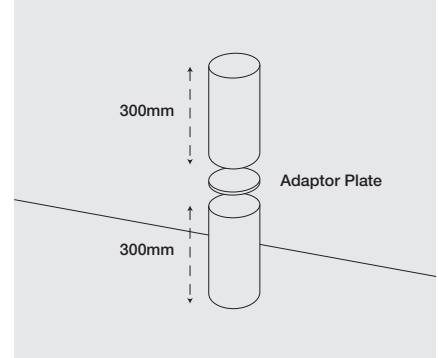

Follow the steps as illustrated below

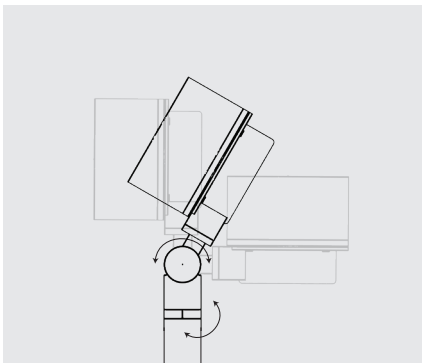

1. Secure base installation plate to pre-fab concrete slab with screw studs.

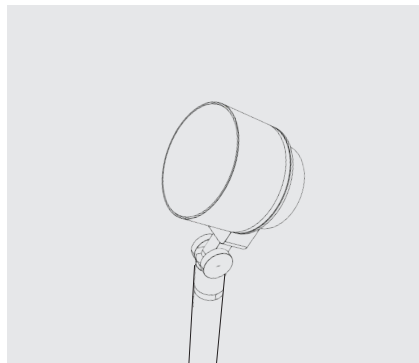

2. Install first bollard segment with LED power supplies. Secure with grub screw.

3. If necessary for increase height, install another segment of 300mm bollard through adaptor plate.

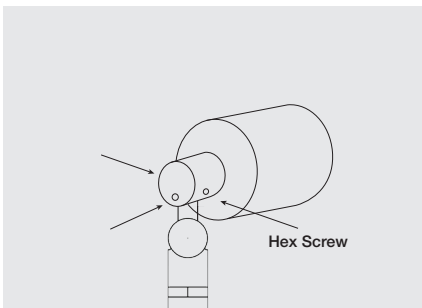

4. Adjust Dapple light projector to the desired tilt and rotation angle, lock the position.

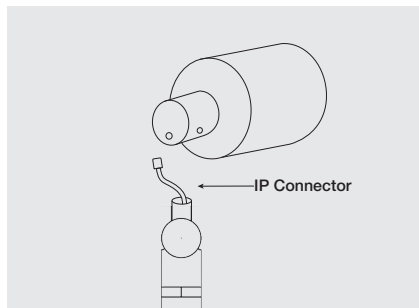

5. Installation complete.

Follow the remove module from fixtures method as illustrated below

1. Unscrew to unlock the LED Module.

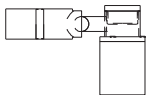

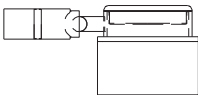

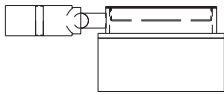

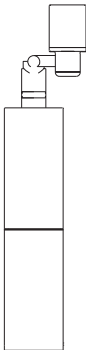

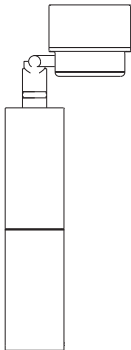

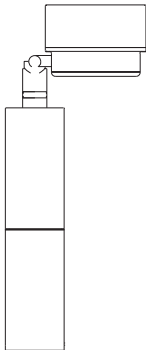

2. Unplugged the connector. The LED Module now is free. Can move to workstation to do maintenance.
